**Check out the website for more awards and info!*

Peter B. Nichol is a visionary who was pivotal in the Connecticut State Health Insurance Exchange successful implementation and delivered the first digital platform for health insurance exchanges. Health Exchange Marketplaces are the largest social change in healthcare within the last 50 years and according to CIO Magazine April 2014, the Connecticut Exchange is a "Health Insurance Exchange Tech Winner!"

As former Head of IT, Peter supports a vision of increasing the number of insured Connecticut residents and specializes in leading complex \$100MM organizational transformations. Peter was the executive responsible for identifying information technology and delivering services to meet these needs across the organization. He obtained his PMP® credential in 2001, a Certified Scrum Master and earned his Six Sigma Master Black Belt in 2006 with a Bachelor of Science degree in Computer Information Systems from Bentley College.
